AT A GLANCE:

Black History Month

Speaking Club: Join a speaking group on a different topic each week at American Corners. Interact with peers and native speakers while sharing opinions and discussing various topics in English each week.

GLOW Club: A club for 14-20 year old girls to explore personal growth and self-awareness through English language activities. Come to try new things, meet interesting girls your age, or just to practice your English while having fun with young American women.

Music Club: Become familiar with different genres of American music and songs in English language. Each week we will listen to music in English language, discuss what we hear, and of course learn new words
